

# WELCOME

Welcome to Crocus Cafe, Nottingham's oldest community cafe. Crocus is a not-for-profit cafe which is why our food is so affordable!

We use some supermarket surplus which would otherwise end up in landfill, so some of our dishes may change slightly day to day. We have limited space! Please be prepared to move up so someone can join your table, we are after all a social eating cafe.

Please let us know if you have any dietary requirements or would like one of our dishes to be vegan or gluten free. So please come to the counter and order a drink or even some food - one of our lovely volunteers will be happy to serve you!
